

Algebra I Objectives

1st Six Weeks

- The Study of Functions
- Algebraic Expressions and Equations

3rd Six Weeks

- Linear Functions and Applications
- Systems of Linear Equations

5th Six Weeks

- Quadratic Functions
- Quadratic Equations and Applications

2nd Six Weeks

- Linear Equations, Inequalities, and Applications
- Investigating Linear Functions

4th Six Weeks

- Systems of Linear Equations and Applications
- Exponents and Polynomial Operations

6th Six Weeks

- Tying it all together
- Cost Comparison Analysis
